Burrows et al	Attorney Docket Number 18973.49
Application Serial 10/045,403	
Date filed: November 16, 2001	

Commissioner for Patents  
U.S. Patent and Trademark Office  
Washington, D.C. 20231

**REQUEST TO CANCEL APPLICATION SERIAL NUMBER 10/045,403**

Sir:

On November 16, 2001, Applicants filed by Express Mail a utility patent application claiming the benefit of Provisional Application Serial No. 60/252,821, filed November 22, 2000. Upon receiving notice that Express Mail delivery to the U.S. Patent and Trademark Office was suspended and that more than likely said utility patent application was not delivered to the Patent Office, Applicants submitted a request under 37 CFR 1.6(e) to accord November 16, 2001 as the application filing date, along with a copy of the previously-filed application papers. Copies of the return postcards for both of these submissions are attached hereto.

Eventually, the Patent Office erroneously assigned two Application Serial Numbers to the subject application – Ser. No. 09/991,108 (based on the original submission) and Ser. No. 10/045,403 (based on the request under 37 CFR 1.6(e)). The filing date in both is November 16, 2001.

In order to avoid any confusion during the prosecution of the subject application, Applicants respectfully request that Application Serial No. 10/045,403 be cancelled. It is further requested that any correspondence related to the subject application be restricted to the remaining serial number 09/991,108.

No fee is believed due in this matter, although the Commissioner is authorized to charge any fee or credit any overpayment related to this matter to deposit account no. 02-3964 (order 189.73.49).

Dated: May 6, 2002

Respectfully submitted,
